A complex map of land parcels, likely a cadastral or agricultural map. The map is divided into numerous irregular polygons, each containing a number. A grid of thick black lines is overlaid on the map, creating a reference system. The numbers within the parcels vary significantly, ranging from 0 to 71. Some parcels are labeled with multiple numbers, and some are labeled with numbers that are not unique across the map. The map is oriented with North at the top.

A 4x6 grid of 24 squares, each containing a random distribution of black dots, representing a noisy image.
